

CONTENTS

SECTION 1. CLINICAL MEDICINE: EXPERIENCE AND INNOVATIONS

Assessment of effectiveness of the complex treatment using thioriazoline in patients with community-acquired pneumonia and concomitant chronic kidney disease	
Iliuk I. A., Korobko O. A., Popenko N. V.	5
Surgical treatment of complicated bilateral combat thoracic trauma	
Minukhin D. V., Yevtushenko D. O., Minukhin B. D.	8
Biochemical and X-ray assessments of the effectiveness of various drug regimens for the treatment of post-cystic jaws defects in elderly patients	
Mokryk O. Ya., Gavryltsiv S. T., Ruzhytska O. V.	12
Endothelial function in teenagers with high blood pressure	
Nikonova V. V.	16
Forensic psychiatric assessment of mental disorders in minor victims in criminal proceedings	
Oliinyk O. P., Kozeratska O. A., Adamenko M. V.	21
Research on the mental health of Ukrainian youth during the war	
Sadova-Chuba Z. T., Hrushkovska D. T., Vasyliv M. S.	26
Some aspects in pathogenesis candidiasis of the oral cavity	
Fesenko V. I.	29
Structural and functional changes of the liver in patients with hypothyroidism	
Cherkashyna A. L., Psarova V. G.	33
The impact of psychoeducation on the level of anxiety in combat participants	
Shuliakova M. I.	39

SECTION 2. THEORETICAL MEDICINE: BASIC DEVELOPMENT TRENDS

Structural organization of the vascular compartment of the classical hepatic lobules of the normal white rat	
Shevchuk M. M., Volos L. I.	41

**SECTION 3. MEDICAL AND BIOLOGICAL SCIENCES:
INNOVATIONS OF THE FUTURE**

Therapy with the angiotensin-converting enzyme inhibitor zofenopril
as a new direction in the treatment of primary glaucoma
Mikheytsava I. N., Kolomiichuk S. G., Siroshatanenko T. I. 45

Mathematical modeling of peripheral hemodynamic indicators
of the lower leg in volleyball players of ectomorphic somatotype
Sarafyniuk L. A., Stepanenko I. O., Shevchyshen V. I. 49

**SECTION 4. PREVENTIVE MEDICINE:
THE CURRENT STATE AND PROSPECTS**

The role of digital technologies in preventive medicine
Kyi-Kokarieva V. G. 53

Review of early warning systems to prevent new pandemics based
on the experience of the COVID-19 pandemic
Korolenko V. V. 56

**SECTION 5. PARTICULARITIES OF TRAINING MEDICINE
AND PHARMACY SPECIALISTS**

The art of medical communication: scientific approaches
and practical tools for effective interaction
Hetman O. I., Matiash L. O., Alifer O. O. 59

Application of heuristic technologies in organizing independent work
of future pediatrician doctors
Dymar N. M. 63

Training of paramedics in Ukraine at the current stage
Kaminska I. V., Kalynchuk S. V. 67

VR glasses as a new trend in the training of future doctors
Kaminskyi R. F., Dzevulska I. V., Podzigun L. V. 70

The role of the teacher in developing empathy in the professional training
of higher education students majoring in «Dentistry»
Kuznetsova M. O., Bibichenko V. O., Kuznetsova I. K. 72

Some labels of the development and contradictions of medical education
and clinical thinking
Khodosh E. M., Kozhyn M. I., Yakovenko O. K. 75
