TEACHER EDUCATION

Chapter 27

Formation of professional competence future primary school teachers in the process of studying mathematical disciplines by using the method of expediently selected tasks (Biletska L. S.)..... 2

1. The essence of the phenomenon of professional competence and the need for its formation in future teachers 3
2. Using the method of expediently selected tasks as a means of forming the general mathematical culture and professional competence of the teacher..... 14

Chapter 28

Current status of professional training of future primary school teachers (Vasylykiv I. B.)..... 28

1. Informatization of education in higher education institutions 29
2. Use of electronic educational resources by future primary school teachers... 38

Chapter 29

Competence and system approaches in the professional development of teachers of electrical engineering (Vasiuchenko P. V., Oliynyk Yu. S., Brovko K. Yu.)..... 56

1. Competence approach in the context of professional development..... 58
2. Systematic approach to the training of teachers of electrical engineering:
Professionogram as a key element 63
3. Pedagogical conditions for the formation of electrical skills in students..... 73

Chapter 30

Professional competence of the future elementary school teacher in the context of the informative educational field (Vynnytska N. V.) 81

1. The main components of professional competence 83
2. Using digital technologies in elementary school..... 90
3. Impact of digitalization on pedagogical activity 96

Chapter 31

The Role of the Textbook in the Primary Education System and in the Organization of Educational Activities in the Ukrainian Language (Hirniak S. P.)..... 108

1. The essence of the terms “content of education” and “content of a subject” and the textbook as their integrating link 109
2. Primer – the first textbook for teaching writing and reading to primary school students 115

3. Organization of educational activities in the study of the discipline “Ukrainian language” in the 1st grade of primary school with the help of the textbook “Primer: in 6 parts” by N. Bohdanets-Biloskalenko, Y. Shumeiko, L. Klymenko (Kyiv, 2024).....	117
--	-----

Chapter 32

Psychological and pedagogical aspects of formation of methodological competence of elementary school teachers (Zhygailo O. O.) 138

1. Psychological and pedagogical aspects of formation of methodological competence of elementary school teacher	139
2. Practical approaches to the formation of methodological competence of elementary school teachers	144
3. Psychological and Pedagogical Support for the Development of Professional Competence of Elementary School Teacher	155

Chapter 33

Adverse influence of mass media on the development of speech competence of junior schoolchildren (Kalichak Yu. L.) 164

1. The problem of speech development of junior schoolchildren in psychological and pedagogical science	165
2. Essence of the category “development of monological speech”	172
3. Specific features of the development of monological speech of younger school-age students	176
4. Analysis of the results of the experimental research.....	180
5. Methodological recommendations for the development of monological speech in younger schoolchildren.....	182

Chapter 34

Modernization of teacher professional training in the modern information society (Kovalchuk V. Yu.) 190

1. Analysis of the problem of modernization of professional and worldview methodological teacher training	192
2. Peculiarities of teacher professional training in the context of the modernization of dynamic present-day realities: self-realization as a component of their pedagogical vocation	199
3. Information technologies as an important factor in the modernization of professional education	208

Chapter 35

Optimization of physical fitness of participants in the educational process: theoretical foundations and practical approaches (Kondratenko V. V., Cherevko S. V.) 216

1. Theoretical foundations of physical training in the educational process.....	217
---	-----

2. Innovative approaches to the organization of physical education in the system of higher education	223
3. Practical approaches and effectiveness of physical training of higher education students	230

Chapter 36

Formation of linguistic personality in the context of anthropocentric scientific paradigm (Kravchenko-Dzondza O. Ye.).....	239
1. Anthropocentrism as a scientific paradigm of linguistics.....	240
2. The concept of linguistic personality in linguistics	245
3. Anthropological paradigm of modern linguodidactics.....	255

Chapter 37

Development of communicative competence of children with intellectual disabilities in the context of developing inclusive education in Ukraine (Lukanova L. O.).....	265
1. Intellectual development disorders as a psychological and pedagogical problem	
2. Peculiarities of the development of communicative and speech skills of children with intellectual disabilities	268

Chapter 38

Challenges, adaptation strategies and prospects for the development of pedagogy in the context of the crisis realities of the twentieth century (Marchuk I. P., Zhukova A. R.).....	277
1. Features of the education system under martial law	278
2. Adaptation strategies of pedagogy in the context of the crisis realities of the XXI century.....	286
3. Challenges and prospects for the development of the education system in the face of uncertainty	290

Chapter 39

Preparing future preschool education specialists for the implementation of an activity approach in preschool education institutions (Matishak M. V., Skomorovska I. A.).....	302
1. Analysis of scientific research on the problem of training future specialists of preschool educational institutions for the implementation of an activity approach	304
2. The influence of the activity approach in early childhood education on the development and formation of the personality of preschool children ...	307
3. Features of implementing the activity approach in early and preschool children's development programs.....	309

4. Theoretical and practical aspects of training future preschool teachers to implement the activity approach.....	314
--	-----

Chapter 40

Formation of information and communication competence as a component of professional competence of future primary school teachers (Moiko O. S.).....320

1. Theoretical foundations of information and communication competence of future primary school teachers.....	323
2. Methodological approaches to the formation of information and communication competence of future primary school teachers.....	334
3. The use of digital tools and educational platforms in the professional activities of a primary school teacher.....	339

Chapter 41

The language space of modern Ukrainian children's literature in the context of linguistic-stylistic and linguistic-didactic paradigms (Ohar A. O.) 352

1. The language space of modern Ukrainian children's literature in the context of linguistic-stylistic and linguistic-didactic paradigms: preliminaries of the problem, its formulation and coverage in modern research.....	353
2. Linguistic-stylistic aspect of the study of the language space of modern Ukrainian children's literature.....	359
3. Linguistic-didactic aspect of the study of the language space of modern Ukrainian children's literature.....	380

Chapter 42

Formation of professional competence of future correctional teachers in institutions of higher education (Pavlyshyna N. B.) 385

1. Professional competence of future correctional teachers as a subject of scientific research.....	386
2. The current state of professional competence formation of future correctional teachers in higher education institutions.....	401

Chapter 43

Academic mobility of teachers and students: prospects and barriers (Sliusar N. O.) 414

1. Academic mobility as a tool for improving the quality of education	416
2. Barriers and challenges of academic mobility	418
3. Academic mobility in the context of digitalization of education	419
4. Academic mobility in conditions of martial law and global crises.....	420
5. Academic mobility in interdisciplinary research	422

Chapter 44

Formation of professional competence of future primary school teachers by activating their independent activity in the process of studying mathematical disciplines (Stasiv N. I.) 427

1. Implementation of a competency-based approach in the formation of professional competence of future primary school teachers428
2. Features of the development of independence of future primary school teachers.....434
3. Ways of forming cognitive independence of future primary school teachers.....442

Chapter 45

Inclusion as one of the priority directions of development of pedagogical education in Ukraine (Stebliuk S. V.)..... 455

1. Theoretical foundations for the development of inclusive education in Ukraine.....457
2. Practical-oriented approach to children in elementary classes with inclusive education.....463

Chapter 46

Achieving a balance of personal, pedagogical and coaching competence of the teacher (Tishchuk O. A., Maievska O. M.)..... 474

1. Definition and essence of personal, pedagogical and coaching competence ..475
2. Research of the main challenges and difficulties associated with the imbalance of competences in pedagogical practice.....480
3. Experience of implementing coaching technologies in the educational process of higher education institutions481
4. Author's methodological recommendations on the formation and support of the harmonious development of the personal, pedagogical and coaching competence of a teacher482

Chapter 47

Online educational platforms as a component of the modern domestic university space (Fedorenko S. A., Maslak V. I., Knysh M. O.) 491

1. Directions, Forms and Tools of Online Learning at Universities in Ukraine.....493
2. Functionality and Practice of Using Online Platforms Google Classroom, Microsoft 365, VOS in Ukrainian Universities.....495

Chapter 48

Culture of non-verbal communication as a component of primary school teacher's linguistic and communicative competence and its professional growth (Fedurko M. Yu.).....507

1. Developed linguistic and communicative competence is a prerequisite for effective pedagogical communication509
2. The concept of non-verbal communication, its means and functions515
3. Development of the culture of non-verbal communication of future primary school teachers by means of philological subjects.....526

Chapter 49

Practical recommendations for teaching media literacy at higher education establishments based on European experience (Fuchyla O. M.).....536

1. The rationale for the necessity of teaching media literacy to the students of tertiary educational establishments538
2. Recommended content of the lessons of media literacy544
3. “Fake news” in media environment: Belgian experience549
