

CONTENTS

SECTION 1. Civil society as a driving force of post-war reconstruction of Ukraine: conceptual approaches, regulatory and legal aspects (Antypenko I. V., Ignatenko V. O.)	1
1. Conceptual approaches to the implementation of post-war reconstruction.....	2
2. Regulatory and legal frameworks for public participation in post-war reconstruction of Ukraine	9
SECTION 2. Functioning of public administration mechanisms to ensure the sustainability of the healthcare system (Bashtannyk V. V.).....	23
1. Functioning of public administration mechanisms to ensure the sustainability of the healthcare system under special administrative regimes.....	24
2. Mechanism of public healthcare administration in the context of European standards of medical services based on evidence-based practice.....	39
SECTION 3. Institutional imperatives of social development as the basis for the formation of an institutional paradigm for the state power implementation (Bashtannyk O. V.).....	53
1. Conceptualization of the institutional paradigm of the state power implementation in the public administration system.....	54
2. Structuring the order of institutional imperatives within the framework of the institutional paradigm of the implementation of state power.....	61
3. Systematization of mechanisms for the implementation of institutional imperatives to ensure the national resilience of the state	71
SECTION 4. Digitalisation in public service delivery: global experience, trends and breakthroughs in Ukraine (Beshta O. O.).....	80
1 The global experience of digitalisation in public service delivery	82
2. The Ukraine dynamic in E-Government Development Index components....	87
SECTION 5. Modern digital state as a public-administrative phenomenon: challenges and prospects in conditions of martial law and post-war recovery (Bovsunivska I. V.)	96
1. Modern digital state: challenges and development prospects	98
2. Foreign practices of digital transformation of the state: lessons for Ukraine ...	105
SECTION 6. SEO optimization and web analytics as tools for enhancing the effectiveness of websites of local self-government bodies (Vasylyv V. B., Beztelesna L. I., Shvets F. D.).....	119
1. Regulatory and informational requirements for websites of Local Self-Government Bodies (LSGBs)	121

2. A comparative analysis of LSGB websites' effectiveness: Ukrainian and international experience	123
3. SEO optimization and web analytics for enhancing the effectiveness of LSGB websites	129
SECTION 7. Improvement of distribution of competencies of local governments and public authorities in Ukraine under martial law and post-war reconstruction (Goncharuk N. T., Samoilov A. P.).....	144
1. Distribution of competencies of local governments and public authorities under martial law	145
2. Improvement of distribution of competencies of local governments and public authorities in Ukraine in the post-war period.....	154
SECTION 8. Socio-economic rehabilitation in the post-war period: the role of public administration in protecting the population (Hrushchynska N. M.) ..	165
1. Methods and strategies of socio-economic rehabilitation in the post-war period.....	166
2. International experience of post-war reconstruction.....	170
3. The role of public administration in ensuring social protection and economic recovery.....	172
SECTION 9. Management approaches to the development of the fintech ecosystem in Ukraine (Demchyshak N. B., Paslavska R. Yu., Klek A. R.)	178
1. Functioning and development of the fintech ecosystem in Ukraine.....	179
2. State support for the development of the Fintech ecosystem in Ukraine	186
SECTION 10. Methods of psychological rehabilitation of military personnel: a competency-based approach to adaptation (Zolotov A. V., Shykula R. R., Akimov O. O.)	195
1. Relevance and structure of psychological rehabilitation of military personnel: normative and theoretical principles	196
2. Peculiarities of psychological rehabilitation of military personnel after completion of service	200
SECTION 11. The use of information systems and econometric models in decision-making support in the areas of public administration and corporate marketing (Ilchenko V. O.).....	211
1. Integration of information systems and use of econometric models in the management decision support system	212
2. The use of information systems and econometric models in public administration	223

3. Integration of information systems and econometric models into corporate marketing	230
SECTION 12. Development of digital competencies in management	
decision-making in public administration (Kravtsov O. V.)	244
1. The essence and structure of digital competencies in public administration....	246
2. Specific digital competencies for management decision-making	249
3. Strategies and tools for the development of digital competencies of public managers in Ukraine.....	252
SECTION 13. Problems of the effectiveness of Ukraine's state guarantees	
in the new mechanism of financing the health care sector (Lytyiak V. Ya.)	261
1. Analysis of the theoretical foundations and the problem of the financial mechanism for the implementation of state guarantees in the health sector in Ukraine.....	262
2. Main ways to improve the financial mechanism for the implementation of state guarantees of Ukraine in the health sector in the post-war period	270
SECTION 14. Interoperability of digital technologies in the context	
of adaptive anti-corruption policy: from big data to blockchain systems (Likarchuk N. V.)	276
1. Heterogeneous synergy of interconceptual digital paradigms in shaping adaptive anti-corruption policy	277
2. Ontological integration of big data into mechanisms of transversal transparency in government structures	282
3. Decentralized cryptographic blockchain architecture as the foundation of ethical recomposition of social processes	288
4. Emergent algorithmic models of institutional responsibility and the deconstruction of corrupt practices in the context of cyberfunctionalism ..	291
SECTION 15. The university as a subject of regional policy: aspects	
of interaction in public space (Makurin A. A., Makurina O. A.)	302
1. Theoretical principles of participation of universities in regional politics	303
2. Implementation of the educational function at the university and personnel training	306
3. Forms and mechanisms of interaction of universities with regional stakeholders and formation of the image of the educational institution	313
SECTION 16. Public administration in the field of socio-economic rehabilitation	
during the post-war reconstruction period of Ukraine (Malakhova T. V.)	319
1. Challenges and priorities of socio-economic rehabilitation in the post-war period.....	320

2. State policy and institutional mechanisms of public administration of reconstruction	324
3. Social rehabilitation of the population and economic recovery: the role of public authorities	334
SECTION 17. Enhancing the territorial communities' educational digital capacity: innovative online learning opportunities for civil servants and educators (Maletska N. S.)	350
1. Developing digital competences of civil servants and educators: key challenges and needs.....	351
2. Territorial community's digital educational potential: definition, structure and development promotion mechanisms	358
SECTION 18. Inspiring future community leaders: digital instruments of teamwork within the e-course on strategic management (Mamatova T. V., Chykarenko I. A., Kravtsova T. V.).....	366
1. Strategic Management and Change Management in the Public Sector: the peculiarities of implementation in a time of war.....	367
2. Three groups of sources which were used to implement the OCIA	370
3. The main online-course changes and the results of digital tools' pilot implementation.....	373
SECTION 19. Civic engagement and state resilience: mechanisms of mutual support during wartime (Matveieva O. Yu.)	381
1. Theoretical foundations of studying civic engagement during wartime	385
2. Forms of civic engagement in providing public services during war.....	390
3. The role of digital technologies in organizing civic engagement and strengthening state resilience during the war	399
4. Challenges and risks of digital civic engagement in wartime conditions.....	402
SECTION 20. Inclusive development policy: problems of implementation in the context of martial law and post-war reconstruction (Melnychuk L. M., Kravchenko M. V.)	417
1. Social inclusion in Ukraine: problems and risks.....	419
2. International standards for the implementation of inclusive development policy	423
3. Legislative initiatives and flagship projects to create an inclusive space in Ukraine	426
4. Prospects for the implementation of inclusive development policy in Ukraine...	431

SECTION 21. Approaches to assessing the progress of regions and local communities' digital transformation: methodological framework and results of the 2022–2024 pilot (Nachovnyi I. I.)	439
1. The vision of the territorial communities' digital transformation.....	441
2. The Regional Digital Transformation Index	443
3. The Ukrainian Local Community's Digital Transformation Index.....	446
SECTION 22. Mass communication dimension of information violence in cyberspace: towards institutionalisation of Ukraine's counteraction (aspect of cyber diplomacy) (Petkun S. M., Verkhovtseva I. H.)	455
1. Mass information influences of the digital age: information violence in cyberspace as a threat to national security	456
2. Ukraine's counteraction to destructive mass media influences: The potential of cyber diplomacy and the basis for its institutionalization	473
SECTION 23. “Green economy” as a way of future development of Ukraine (Poplavska Z. V., Komarynets S. O.).....	494
1. Ukraine’s losses from Russia’s direct aggression as a catalyst for change to “green economy”.....	495
2. State management of the transition to green economy	500
SECTION 24. Value priorities and mechanisms of public administration in the context of digital transformation: a netocratic approach to providing administrative services (Storozhenko L. H.)	515
1. Theoretical and methodological foundations of mechanisms for providing administrative services in the context of digitalization of management	516
2. Value orientations of public administration in the process of digitalization....	523
SECTION 25. Artificial intelligence in public administration: balancing opportunities and risks for public interest (Tarasenko T. M.)	536
1. Artificial intelligence as an innovative technology in public administration ...	539
2. Challenges and tasks of further defining approaches to the application of artificial intelligence in the public sector.....	544
SECTION 26. Transformation of the modern scientific concept of public administration based on the principles of “green transformation”: analysis of the current state (Khozhylo M. E.)	557
1. Theoretical foundations for the formation and implementation of the scientific concept of “green transformation” in the field of public administration	558
2. Policy of “green transformation” in the period of post-war reconstruction of Ukraine: analysis of priority introductions.....	562

SECTION 27. Forms of interaction between the state and society in the system of public administration instruments (Shpektorenko I. V.)	570
1. Forms of interaction, tools for involving citizens in the provision of public services.....	574
2. Forms of interaction, tools for citizens' perception of innovations in the public sector that were partially or fully developed with their participation	577
3. Forms of interaction between the state and society in the dynamics of changes in partnership practices in hybrid organizational environments	580
4. Manifestation of forms of interaction between the state and society in the assessment by citizens of decisions of street bureaucrats to comply with or break the rules for the benefit of customers	583
5. Forms of interaction between the state and non-profit organizations (NGOs) that use hybridity as a tool (mechanism) for social innovation and social value creation	585
6. Forms of interaction between the state and society in the context of the principles and functions of public administration as systems.....	587
