

CONTENTS

PUBLIC HEALTH

Chapter 1

Mechanisms of Breastfeeding Support in the Healthcare System: International Evidence and Ukrainian Realities (Antal N.) 2

1. Institutional and Human Resources Mechanisms of the Healthcare System's Influence on Breastfeeding 4
2. Regulatory and Educational-Communicative Mechanisms 7
3. Digital and Psychosocial Mechanisms. Programs Combining Multiple Mechanisms 11

Chapter 2

Global mobility of health workers and workforce security of Ukraine's health care system (Vovk S., Kravchenko M., Vovk T.) 21

1. Dynamics and structural imbalances of the health workforce in Ukraine 22
2. Reproduction crisis and challenges of global competition for talent 26
3. Strategic priorities to enhance health workforce security 30

Chapter 3

Pathogenetic mechanisms underlying the relationship between calcium-phosphorus metabolism and the condition of periodontal tissues (Gorb-Gavrylchenko I.) 39

1. Biochemical markers of electrolyte metabolism in the assessment of the activity of osteoporotic lesions in the alveolar bone in patients after oophorectomy 43
2. Endocrine mechanisms of impaired bone remodeling in women with long-term surgically induced menopause 46

Chapter 4

Social Work within Mental Health System Reform in Ukraine: Regulatory Changes and Competency Challenges (Karagodina O., Semigina T.) 52

1. Conceptualizing the Recovery-Oriented Approach 55
2. Recent Developments in Ukraine's Mental Health Legal and Regulatory Framework 56
3. Comparing the Ukrainian Model with WHO Approaches 63
4. Implications of Changes in the Mental Health Field for Practice and Professional Education in Social Work 66

Chapter 5

Multidisciplinary Model for Population Anxiety Assessment within the Public Health Paradigm under Military Risks (Nesterenko M.) . 76

1. Epistemological Limitations of Mono-Paradigmatic Approaches to Anxiety in Public Health Contexts 78
2. The Five-Level Matrix of Population Anxiety: Synthesizing Theoretical Paradigms with Diagnostic Markers 83

Chapter 6

Health preservation policy within the global security framework: paradigm shift and integrated threat management strategies

Spivak M., Kobko Ye.) 98

1. Ukraine on the global demographic map and its security levels 99
2. Global determination of existential threats and the scientific and technological basis for their neutralization 107

Chapter 7

WHO “Health for All” Policy as a Tool for Sustainable Public Health Development in Ukraine: Assessment of Implementation Effectiveness and Strategic Priorities under Wartime Challenges (Shanyhin A.) 116

1. Integration of WHO international approaches into the reform of the healthcare system of Ukraine 118
2. Assessment of the effectiveness of implementing the “Health for All” principles through public health indicators of the population of Ukraine 124
3. War-related challenges and their impact on the sustainable development of public health in Ukraine 130

Chapter 8

Physical activity among children and adolescents as a determinant of health: factors, development patterns, and conceptual foundations for its enhancement (Shepella H.) 141

1. The problem of low physical activity levels among children and adolescents in Ukraine and its determinants 143
2. The development of physical activity in children and the conceptual foundations for its formation 150

PSYCHOLOGICAL RESILIENCE

Chapter 9

Ethical Leadership as a Managerial Mechanism for Integrating ESG Principles into the Sustainable Development of an Enterprise (Borshch V., Danilko M.) 164

1. ESG Principles as a Strategic Framework for the Sustainable Development of an Enterprise 170

2. The Interrelationship between Ethical Leadership, ESG and Sustainable Development of an Enterprise	180
3. Managerial Mechanisms for Integrating ESG Principles and Ethical Leadership into Enterprise Strategy	185

Chapter 10

Medical and social support for students with special educational needs (Razvin S.)	200
---	------------

1. Main components of medical and social support	201
2. Mechanisms for implementing medical and social support	206
3. Challenges and problems in implementing medical and social support	211
4. Prospects for improving medical and social support	215

Chapter 11

Psychological aspects of the emergence and role of conflicts in the development of the labor team of a pharmaceutical enterprise (Khomenko O., Gutarina M., Krychkovska A.)	223
--	------------

1. Theoretical and psychological analysis of the conflict in the organizational structure of a pharmaceutical organization, enterprise (literature review)	224
2. Regulation technology and psychological prevention of conflict in the labor team of a pharmaceutical enterprise and organization	236

DIGITAL HEALTHCARE ECOSYSTEM

Chapter 11

Pharmaceutical Care in Ukraine under Martial Law: Features of Development and Ways of Improvement (Varvanych T., Khomenko O., Drohobetskyi O., Krychkovska A.)	255
---	------------

1. Theoretical and Organizational Foundations of Pharmaceutical Care	256
2. Methodological and Practical Aspects of the Transformation of Medicine Delivery Systems	271
3. Strategic Analysis and Prospects for the Development of the Pharmaceutical Care System in Ukraine	278

Chapter 12

Artificial Intelligence in the Surgical Management of Gynecomastia: Medical and Social Aspects (Kolesnykov Ye., Badyul P., Ihnatieva A.)	295
---	------------

1. Pathophysiology and Traditional Surgical Paradigms	295
2. Foundations of AI and Machine Learning in Surgical Contexts	297
3. AI in Preoperative Assessment, Planning, and Simulation	298

4. AI-Enhanced Intraoperative Execution and Tissue Differentiation . . .	300
5. Postoperative Monitoring, Complication Prediction, and Outcome Analysis	301
6. Predictive Analytics for Postoperative Complications	302
7. Remote Monitoring and Wound Healing Analysis	302
8. Ethical, Regulatory, and Practical Challenges	303
9. Future Directions and Emerging Horizons	305

Chapter 12

Ecosystem of digital management of medical and rehabilitation healthcare facilities (Komar O.)	310
1. Digital transformation of healthcare institutions	311
2. Modern digital management tools	316

Chapter 12

Stress- and blast-induced brain neurodynamics dysregulation symptom complex in security and defense sector personnel as a factor of tactical risks during the armed aggression against Ukraine: multimodal solutions within the digital ecosystem of military neuropsychology (Sokolova A.)	328
1. Pathomorphological prerequisites and neuropsychological mechanisms underlying the development of the stress- and blast-induced brain neurodynamics dysregulation symptom complex	330
2. Innovative approaches and digital screening tools for stress- and blast-induced brain neurodynamics dysregulation in security and defense sector personnel	335
3. Multimodal solutions within the digital ecosystem for neuropsychological rehabilitation of security and defense sector personnel with stress- and blast-induced brain neurodynamics dysregulation symptom complex	340
